The Matchless Evil.

We have a few more words to say upon this subject. Its overwhelming importance justifies the attention we are giving it. We cannot be too earnest in the cause of temperance.

The recent Minister, and Laymen's Conference which convened at Clinton, gave very earnest attention to the matter, and finally resolved to withdraw all patronage from whisky vendors. It will be said that this is radical, and we cheerfully grant that it is, but it is just what the case calls for. We want a remedy that will reach the root of the disease, and such an one is proposed by the conference. As things have been, and are, the money power has been used all on one side of the great struggle. The friends of temperance are compelled to work against a body of men who make money by ruining people. "The sinew of war," are all on the wrong side. More generally do not sell whisky through any law they have for doing harm to the people. On the contrary, most of them, we believe, think meanly of their business, and would rather not follow it. But there is money in it, and the love of money is too strong for the moral sense. Many a right good man has entered the whisky business under the protest of his conscience, but through the influence of his surroundings, he has gone down, and down to the bottom. No man can do wrong and not be the worse for it. Now it is possible for the friends of temperance, in a large measure, to use the money power on their side. Let every man know that whenever he begins the sale of whisky he loses the patronage of the best people in the country, and he will not make the sacrifice. Indeed, the only influence that could influence him to do what he feels opposed to, now acts in the other direction. Thus many a man would be saved who otherwise would gradually assimilate to his low calling and finally be lost. And in this way, too, many a community would be saved from the corrupting influence of a back door grocer.

It is wrong in itself to give support to men who make it a part of their business to ruin people, soul and body. The whisky business is essentially immoral, corrupting and dishonorable. There should be no toleration of it, or men engaged in it. This brings us to say that every man who sets up a saloon should forthwith forfeit his standing in society. Why should he not? Who for a moment thinks social recognition should be accorded those jockeys, who by false lights decoy ships upon the rocks, and live by destroying human lives? And what better is the work of the liquor vendor? He lives upon the tears and blood of his victims. To condone the conduct of such men, is for society to be false to itself. And all this applies to the illicit dealer, as well as to him, who openly plies his horrible business. This is radical, says one. Yes, but it is true, and right, and, if society, good men and women, will act on this plan they will be doing the best thing for themselves and the world. We cannot afford to temperize with this monster. In our opinion we must lay the axe to the root of the tree. This we do when, in every way, and everywhere, we make it to the interest of men to act properly with respect to the matter. In so great a struggle we have need to invoke the assistance of every power possible.

There is one power which is potent for evil, and which deserves special mention. It is the press. We are compelled to say that the press has not done its duty in the temperance cause. Further, very largely, it has been, and is, on the wrong side of the great question. Even all our religious papers are not sound, some of them maintaining the morality of selling and using liquors as a beverage. The secular press is fearfully wrong. Many of them contain flourishing advertisements of saloons, beside many "docs" directing drinkers where to go to find what they want. The truth of it is not a few of the editors of secular papers are notorious drinkers, not to say drunkards. Now, we do not believe that Christian people ought to tolerate this in the papers which they introduce to their families to influence their children. Editors are paid to advertise and puff saloons. It ought not to pay them to do it. In a county in this State in which there are, we guess, not less than thirty Baptist churches, the county paper regularly puffs the saloons. Now, suppose a hundred or two of the patrons of that paper—

there must be that many professed Christians who read it—would clip the objectional parts and enclose them to the editor with something like this: "I do not wish a paper in my family which lends its influence to the corruption of society, and which may corrupt my children. Please stop my paper." In such a case one of two things would happen. Either that editor would make a better paper, or its chances for doing harm would be less. So in one way or another good would result. We cannot afford to support a press to degrade the country.

The line of action is sufficiently indicated. Let every earnest man do his part. Co-operation is a good thing. But, first of all, we must have a large number of men and women who are resolved to do the right thing, if they must, act alone. No doubt, many a one in his or her neighborhood will be compelled to act alone, if the right line of policy is adopted. But what of that? Great hearts, with respect to any question, ask only what is right, knowing that, they take their position, for all time, glad if others are with them, but undismayed and unmoved, if they stand alone.

Our Removal.

Most of our readers will be somewhat surprised to receive their paper this week from Jackson, instead of Clinton. The Record has been domiciled at the State Capital. Among the reasons which have influenced us to make the move, are the following:

1. Better facilities for publishing. We have never been able to satisfy ourselves or our patrons with the mechanical execution of the paper. Up to this time we have been using a hand press, worked by such persons as we could employ for that purpose; want of skill on their part and the want of a power press to run off our edition. To purchase one would involve an outlay of \$1,000, and the employment of a skilled workman to run it. We were not prepared to make the purchase now, nor is it easy to find a man who could be trusted to run such a machine. By our present arrangement with Mr. Charles Winkley, we secure the press without any outlay, and at the same time, his personal attention will be given to the printing of the Record. Henceforth we expect the printing to be in all respects, first class.

2. In the second place, the general financial interest of the paper demanded the move. We have felt the disadvantage of our position for some time, and hence have been desirous of moving. There is but little local advertising to be had at Clinton, and that constitutes a very large part of the income of a paper. Freights on paper from Jackson to Clinton are exorbitant; and we have been often put to great inconvenience by delays. Besides all this, the present combination of the Record, with the complete job office of Mr. Winkley, will secure the paper against financial embarrassments, and will give Bro. Martin more time to work in the field in the interest of the paper.

After a careful examination of the whole matter, we can give it, we are clearly of the opinion that the paper will be greatly strengthened, financially, by the present arrangement.

3. We feel that Jackson is the natural place for the paper, it being the State Capital. Here too we come in contact with a great many people who constantly visit the Capital on business of one sort or other. From this place also, our facilities for the rapid distribution of mail will be better.

These are the principal reasons for the removal. We have acted in the interest of the paper. The denomination wish us to make a good paper, and with good printing, good editing and active field work, together with the help of our brethren, we have no doubt of a gratifying success. We believe we have secured, in the present combination, all the conditions of success. Of one thing we are sure, we have taken no financial risk in the move.

In the change of place we have injured no denominational enterprise. Every interest can be fostered as well from Jackson, as from Clinton, and we think better.

The editorial office will continue to be in Clinton. Correspondents, therefore, will please continue to address us at Clinton, as before.

The Southern Baptist Convention will be gathering in Atlanta as we go to press. The Editor of the Record will not be there, though he very much desired the pleasure of meeting the brethren. The Convention, however, will do very well without his wisdom to direct it. Louisiana and Mississippi will be well represented by able and true brethren. Let us who remain at home pray that the Lord will be with his people to guide their minds in all their deliberations. Some account of the meeting will appear in the next Record.

A large number of brethren and sisters report some of the books recently inquired after. Bro. J. L. Slay, of Quitman has them all.

The Removal.

Having removed the publishing of the Record from Clinton to Jackson, I feel that a word of explanation is due from me. I might say, in a word, that I have taken this step simply because I thought it best for the paper; but in connection with what is said by the editor, I will give a few reasons which have urged me to enter into the new arrangement for publishing.

1. The income of the paper has not been sufficient for me to give it my time. I have had to look to other sources for a living, and at the same time give it my attention without remuneration. I have borne this burden cheerfully for two years, but I find that it is not only overtaxing my energies, but interfering with my work as a minister. I could have saved money, but I preferred to put it into the paper. My object is to furnish the denomination a good paper on as reasonable terms as possible, and make the question of pecuniary reward a secondary consideration. I think I see how the removal, and union with Mr. Winkley will work to the financial interest of the paper, and enable me to give more of my time to my ministerial duties. A good deal of job work will naturally come to the Record office especially if we are well prepared to execute it. Mr. Winkley is "master of his trade" and is well equipped for doing any kind of printing. I have formed a partnership with him in the printing business, which will insure those wishing us to do their job work first-class work. The denominational printing which the influence of the Record will bring, added to the standing patronage of Mr. Winkley, I think, will go far toward placing us on a firm financial basis. Will the brethren give us their patronage and influence in this direction?

2. I have felt the need of better mechanical execution. Sometimes our print has been bad. We need a power press. Our foreman, Bro. Hobbs, who has been our main stay in the office, will leave us in June, and we cannot supply his place at the prices which the Record can afford to pay with its present income. All these will be met in the new arrangement.

3. Our advertising patronage will be greatly increased by the move. We need to be at a centre of trade to command advertisements.

4. We need outside work. The duties of the paper have so confined the Editor and myself that we have not been able to circulate among the brethren as we have desired. Mr. Winkley in charge of the printing department, and Bro. Jno. T. Buck, who needs no introduction to our readers as Local Editor, will be greatly relieved and be able to see more of the brethren. This I regard as an element of success.

5. I think Mr. Winkley has given me a real good trade, and I have said as much to him. He, in turn, thinks I gave him a good trade. So we are both pleased, and we think you will be pleased when you see the improvement in the paper.

I wish to say that in the union with Mr. Winkley, I surrender none of the proprietorship of the Record. Our partnership is only in the printing business, and, as a business firm, we publish the Record, which is still mine as before.

Mr. Winkley is not a Baptist—not a professing Christian at all—but is regarded as a gentleman, in every sense of the word, and has no superior in these parts in the printing business. In short, he suits me as a business partner.

I would be glad to know that the brethren generally approve the move; but if any should not, that does not change the fact—the Record is printed in Jackson.

The Exodus.

Here is something from New England on the Exodus. Reviewing an article in the *Index* the *Watchman* says:

A belief seems to be implied that this movement originated in the North, and that the colored people are drawn from their homes by invitations and promises of the Northern people. We do not think there is any evidence to sustain that opinion.

It is common for our brethren North to know about such things better than we who live here, but in this case we beg to tell our esteemed editorial brother that he is not informed. Emigrants have come to this country and ridden over it, in the interest of this move. One known to come from Washington has been in this vicinity. Again:

It is evident that their exodus has but just commenced, and ample provision should be made for their comfort till they are established in their new homes. But there is danger that the business of relieving and assisting them will be entrusted to unwise persons.

We can assure the North that we have been feeding her tramps for several years, and that we will take it kindly if she will return the favor. Read this:

Now we believe that all colored people who want to escape from districts where the shot-gun policy has prevailed, should be helped to do so. Even if these counties were entirely deprived of their laboring population, it would be but a just recompense for the bloodshed of which the rougher whites have been guilty, and at

which the gentler whites have winked. We would organize societies, or if need be, take up special collections in churches, to facilitate the removal of those who have suffered so much in the past, and are exposed to such dangers in the future. We would have trusty agents sent among them to lead them into liberty and safety. We would continue the process until the South makes up its mind to hang the murderers, however respectable they may be, or however firmly entrenched in the support of officeholders, for whose sake they perpetrated crime.

That there is blood shed and crime in this section we do not deny, but there is not more of it here than in the latitude of Boston, if the Northern papers are to be trusted. This we will say; the negroes are not flying from shot-guns, but to a land which flows with plenty, as they understand it. The *Watchman*, one of the best of our Northern Exchanges, does the South gross injustice, and violates a very plain principle of ethics in doing so.

Eld. Wm. Thigpen on Ministerial Education.

That a knowledge of the language of the Scriptures, or the meaning of the words employed and their relation to each other, is necessary to enable one to expound them to others is admitted. This we do not deny. If you are going to be teachers, be teachers in that noble sense of the word, crave not the empty titles of honor and distinction, as the elevation of humanity. Remember that we are not necessarily the greatest man who has the highest title, but the noblest specimen of a man, who raises the greatest number of others.

Mr. Gladstone, of England, never uttered a truer sentence than when he said, "The real hero must have in him a moral character, at least to his intellectual forces and physical courage." And what ever be your profession, young gentlemen, spend your lives, neither in a hermitage nor in an observatory, but identify yourselves with the people whom you would elevate. Let us be men of the people, not men of the pulpit.

These are sound words, only a little stronger than we like. We have assisted in the ordination of more than one brother whose education was below brother T's standard. We would ordain a man to preach, under some circumstances, who could not read. If he gave all the evidences of a divine call, and by hearing others read the Bible, or by any means had learned the way of life and could tell it to others so that they could understand it, and at the same time showed a proper disposition to learn, we would send him forth with his message, praying the divine blessing upon him and his work. Evidently such a person would be greatly hindered and would labor under serious embarrassment, but if God called him, we would think there was a place and a work for him, and we could not reverse the divine mandate. We would, however, do what we could for his improvement. This accepted, we are in perfect accord with the views of our venerable brother. We regard him as extreme on that point. We do not believe that the Scriptures are the guide that a man shall read before he is ordained. But they do require ministers to study as best they can, and the man who will not improve, who thinks he knows enough, is the one we will not ordain.

We have heard frequently of making education a condition of ordination, but we never saw it advocated in Baptist print before. Certain it is that the Scriptures do not require it, and we should not. We feel that there is a tendency to an extreme just here, which should not be encouraged.

Philanthropean Anniversary.

The anniversary of this society of Mississippi College was fully up to the average of such exercises. The attendance was good, and all the speeches were creditable to the gentlemen and the society. The following is the list of subjects and speakers:

Salutatory address, Joel Baskin, Oration—Usefulness the end of Living, J. A. Snyder (Recitation)—I've Drank my Last Glass, J. F. Purser; Debate—Should the United States prohibit Chinese Immigration? Affirmative, B. T. Hobbs; Negative, J. H. Rannels; Anniversary Address—Little things, J. E. Thigpen.

We were especially pleased with the oration on "Usefulness the end of Living." But we will not specify further. They were all very good and right well delivered.

Last Sunday was spent pleasantly, and we hope profitably, with the church at Vicksburg. We preached in the Jewish synagogue, an elegant building. After the sermon Bro. T. J. Haynes, a standard Baptist, was ordained deacon. Then the communion of the Lord's supper was observed. The services were all solemn and sweet.

By the most heroic and persevering efforts, the faithful band of brethren and sisters in this, the chief city of Mississippi, have nearly completed the sum necessary to restore their church building. They expect to be in their own house by early fall.

The people of Vicksburg have shown our distressed brethren and sisters much kindness. The Jewish congregation have given them for months the use of their beautiful synagogue in which to hold their meetings, and the people at large have contributed liberally toward the restoration of our church-house. The Anchor Line Company does a special act of kindness by placing the steamboat John B. Maude at the service of our people for an excursion.

Lovers of Learning.

There are two kinds of Philanthropists—a few new "scholar" for the column, "Notes and Comments." "Now is the time for those brethren who are opposed to agents to take collection for State Missions," (this is like asking a man to contribute for the support of the thing he is opposed to.) "Let us show that we do not need any one to look after us." (No, don't put the agent to the trouble of going around to collect his salary, send it to him.) Collecting money for State missions means collecting money for the support of the agent as I understand it, and it will require a report of facts to the contrary to change that opinion, which is not contained in the last report (as you thought) or any other that I have seen. Don't think we are doing nothing, because we send nothing to the Board for the support of State Missions? A nice collection was taken up in our church last Sabbath for Foreign missions, and we expect to do something soon (as heretofore) for our Home mission work. I believe that Foreign missions should come first. Particularly since I heard the State agent say that working for home first, was the "devil's theology." THE BAPTIST RECORD.

JOHN T. BUCK, Local Editor.
JACKSON, MISS.
THURSDAY, MAY 8, 1879.

NOTICE TO ADVERTISERS.
The price and terms for all advertisements inserted in this Record will be arranged by special contract. Address all letters to this office to "The Baptist Record, Jackson, Miss."

The Record has a large and increasing circulation throughout the States of Mississippi and Louisiana, and is one of the best advertising mediums in the South.

Marriage and death notices are limited to one hundred words for all over this number, two cents for every additional word, and all notices must be paid for in advance.

MANFIELD, LA., April, 1879.
Dear Record:—It is very interesting to me to see that you have not yet shown that the Record is not a word from Manfield will not be missed.

As a church, we have reason to be proud of an increased interest in our prayer meetings, and Sunday school are favorable indications, and the promise of the "All Father" to these schools encourages all to labor for the Lord's glory, notwithstanding discouragements not a few.

At the meeting of our Sunday school Convention, which convened recently at the River Grove church and Sunday school at Kingston, La., we had a very pleasant time, and much was said. As a Sunday school Convention, very little was accomplished. Even the reports from the Sunday schools were not made, and the Convention was a failure in many respects.

LOCAL NEWS.

Gen. J. Z. George takes his seat as Judge of the Supreme Court on the 10th inst. We return our acknowledgments to Hon. Van H. Manning for Congressional favors.

Health officer Curran informs us that the sanitary condition of Jackson is very good at present.

A storm of wind and rain swept over our city on Sunday evening, but we have heard of no damage.

We return our thanks to the *Champion* office for continuously allowing in its columns the free use of our advertisements.

The law part of Messrs. Shelton & Shelton will be found in our advertising columns. All business interested to this firm will have prompt attention.

The advertisement of Hollins Institute will be found in another column. This Institution is located at Hot Springs in the midst of the Virginia mountains.

On Sunday Mr. Chas. Howell and Miss Mahlon, of this city, were thrown from a buggy by a runaway horse, and Miss Mahlon hurt, but not seriously.

One of the leading business men of Jackson says that his advertisement in the Record has paid him better than all the others together. If you doubt this, you can give the name.

Attention is called to the advertisement of Messrs. Whiting & Gray, which will be found in another column. Citizens, and those visiting Jackson, would do well to call and see them when in need of anything in their line.

We were pleased to see in our office a few days since, Ed. W. Howell, who is visiting his relatives and many friends in Jackson. Ed. H. is in charge of a church in Manchester, N. H.; he gives quite an encouraging account of his work.

On Sunday, at 11 o'clock, he preached in the Baptist church two good congregations; subject, "Philosophy in suffering."

The firm of this city had their usual May parade on the 1st inst. The machines were all beautifully decorated, the music by the two bands was excellent, but the rain, for a great extent, marred the anticipated pleasure. Jackson may well be proud of its Fire department; there is not a more efficient one anywhere. Jackson Fire Company, No. 1, has been in service forty years, and only four of the original members are now living.

We send a copy of the Record this week to some of the citizens of Jackson who are interested in the cause of the colored people, and ask that they will do the kindness to name it. We propose that the paper shall be one of the fixtures of Jackson, and will try to make it interesting to all persons.

An advertising notice in the Record is without a rival; it is now a large advertisement which is being rapidly increased. We should be pleased to receive your subscriptions and advertisements.

The "Bible Party" given by the Young Ladies of Mrs. Warr's School, at St. Margaret's Hall, on the evening of the 21st of May, was attended by quite a number of invited guests. The grounds looked beautiful, with the lights gleaming among the evergreens, and everybody seemed happy. We have not space to notice the exhibition as fully as it deserves, but it was a very successful one.

Very well, I'll cease. Should any thing of special interest occur I shall be forthwith communicated. I shall say you'll not blame me for that which is said to be "golden" sayings.

Take good care of Bro. J. K. Paul. He is one of the workers. Max the Lord prosper him in his mission. [His old father, sticks to me.—Ed.]

A German physician says that early rising is a very bad habit. He will become popular as a *luz* physician.—*New Orleans Recorder*.

St. Louis, May 2.—There is deep interest in the report that Gen. Wade Hampton's son, aged sixteen years, has not been seen since April 20th, when his brother sent him to a livery stable to settle a bill.

Mr. Charles Kerr, who was member of Capt. Collins' surveying party, returned to this city Thursday morning; he informs us that the survey of lower Pearl river has been completed, and that the engineer's report will be forwarded without delay.

The negro exodus from Concordia parish, La., has caused considerable uneasiness among the planters; and a joint meeting of whites and blacks was held at Vidalia some days ago, to investigate the causes, and if possible, remedy the evil. The *New Orleans Picayune* sums up the case as follows:

Really, the natural explanation of the whole business seems to be that the movement is a strike of labor against capital, and that, like other strikes, it may be pacified by mutual concessions. It has taken the form of immigration in consequence of the fact that the whites have represented to the colored people that they could not afford to leave their homes, and that they would be able to get them for four or five days. These civilians, or rather their Tabliders, in whose hands they are, grind down those wretched exiles to the last extremity. Of course this gives us constant work preparing troops on a war footing at a couple of hours notice.—*Et.*

The Peruvian town of Pisagua has been bombarded by the Chileans.

The vault of the Lancia (N. H.) National Bank was blown open on the 25th, and \$4,000 in cash and \$120,000 in notes stolen.

A negro watchman at the San Francisco Mint has been detected in stealing gold bullion from the vaults. He has operated for over three years and taken about \$20,000.

After an excited debate the Parliament of British Columbia passed a resolution last week, which was telegraphed to London, asking permission to secede on May 1st, unless twenty obligations were fulfilled at once.

Vicksburg Herald says: It is proposed to exchange Southern politicians, pistols and hip-pockets for cotton spindles at the rate of five for one, and it strikes us we would be making a good bargain even at that rate.

The pistons and politicians might be sold as old iron, melted down and used for some purpose.

A Word to Mothers.
You have children; you have a strong and enduring love for them; no one else feels as you do; this love you appeal to; to give to your child, as to look upon your child, and to be with him in his infancy, childhood, and manhood, is a duty which no mother can neglect. You know that the most of the sickness of childhood is caused by worms; they make the child pale, the tears to fall; they call the physician to the door; they ring your fond and loving hearts with anguish. But grievous news, PINKET'S SANTONINE WORM LOZENGES will save your child. They expel the worms from the stomach completely, give the child vigor and health, and restore the health and vigor of the mother. Thousands of mothers all over the land today are using PINKET'S SANTONINE WORM LOZENGES, and they are all happy. For sale by all druggists. For sale in Jackson by Dr. B. H. Whitfield.

Consumption Cured.
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for consumption, and permanent cure for asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive, and a desire to relieve human suffering, he will send free of charge to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail by addressing with stamp, naming this paper, W. W. Shear, 119 Powers' Block, Rochester, N. Y.

A Revolt in India.
ANOTHER OF ENGLAND'S LITTLE WARS—TROUBLE IN THE MADRAS PRESIDENCY.

A small disturbance of a very disagreeable nature, about which not a whisper has so far suffered to become known, has most inopportune broken out in the Madras Presidency, British India. The following is an extract from a private letter, written by an officer of the Royal Artillery attached to the Ordnance Department at Madras, dated March 13th: "We had just dispatched two regiments to Burma, yesterday, when a telegram was received announcing that there was a revolt at Rangoon, somewhere near Rajahmundry—a military station in the northern portion of the Madras Presidency—and had to send off another regiment immediately. As the evidence of the urgency of the case, I may state that the men received their orders at 2 p. m., and embarked before 6. This was pretty sharp work I think you will admit. The

gist of the Rajahmundry business seems to be that one of the Madras civilians has been taking coconut trees belonging to some local tribes. The owners refused to pay and kicked out the police. Then the official shot himself up. The natives surrounded him and his attendants and cut them off from supplies of food and water. I believe the whole tribe is up and means mischief, but they are only armed with bows and arrows." The telegram says: "The Sub-Collector should have returned today to Jammunah (circuits of inspection and assessment), but is detained indefinitely." If he is dead, or even cut off from food or water, it is probable that the regiment will not be able to get him for four or five days. These civilians, or rather their Tabliders, in whose hands they are, grind down those wretched exiles to the last extremity. Of course this gives us constant work preparing troops on a war footing at a couple of hours notice.—*Et.*

They expel the worms from the stomach completely, give the child vigor and health, and restore the health and vigor of the mother. Thousands of mothers all over the land today are using PINKET'S SANTONINE WORM LOZENGES, and they are all happy. For sale by all druggists. For sale in Jackson by Dr. B. H. Whitfield.

Consumption Cured.
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for consumption, and permanent cure for asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive, and a desire to relieve human suffering, he will send free of charge to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail by addressing with stamp, naming this paper, W. W. Shear, 119 Powers' Block, Rochester, N. Y.

A Revolt in India.
ANOTHER OF ENGLAND'S LITTLE WARS—TROUBLE IN THE MADRAS PRESIDENCY.

A small disturbance of a very disagreeable nature, about which not a whisper has so far suffered to become known, has most inopportune broken out in the Madras Presidency, British India. The following is an extract from a private letter, written by an officer of the Royal Artillery attached to the Ordnance Department at Madras, dated March 13th: "We had just dispatched two regiments to Burma, yesterday, when a telegram was received announcing that there was a revolt at Rangoon, somewhere near Rajahmundry—a military station in the northern portion of the Madras Presidency—and had to send off another regiment immediately. As the evidence of the urgency of the case, I may state that the men received their orders at 2 p. m., and embarked before 6. This was pretty sharp work I think you will admit. The

gist of the Rajahmundry business seems to be that one of the Madras civilians has been taking coconut trees belonging to some local tribes. The owners refused to pay and kicked out the police. Then the official shot himself up. The natives surrounded him and his attendants and cut them off from supplies of food and water. I believe the whole tribe is up and means mischief, but they are only armed with bows and arrows." The telegram says: "The Sub-Collector should have returned today to Jammunah (circuits of inspection and assessment), but is detained indefinitely." If he is dead, or even cut off from food or water, it is probable that the regiment will not be able to get him for four or five days. These civilians, or rather their Tabliders, in whose hands they are, grind down those wretched exiles to the last extremity. Of course this gives us constant work preparing troops on a war footing at a couple of hours notice.—*Et.*

victions are not reached you are not
making converts, except in name.
You may gain adherents to theo-
retical opinions, but you do not add a
pound of steam to the engine which
drives the old ship of Zion. You
add a carcass to the already heavy
freight bill, but you give no buoy-
ancy to its waterlogged hull. It may
sustain itself for a while, but I feel
that the great mass of what is
termed "religious fiction" is a pious
fraud. I do not impeach the motives
of the authors. I will grant that
they all mean well. I will grant that
their books are incomparably
superior to those which do not aim
at a moral higher than the current
public sentiment of the world. But
still let us not deceive ourselves, yet
thinking that they present as with
examples of faith and practice safe
and sufficient. Christ calls for sol-
diers, not sultans, drummers and
camp followers. He calls for labor-
ers, not for tradesmen to buy up and
speculate upon the crop. He wants
martyrs who have really lived every
word of his gospel, and who glory upon
the altar. He wants men who are
ready to die and at the same time
willing to live and suffer—men,
women, boys, girls who forget them-
selves and self-interest in the inter-
ests of their devotion to the Mas-
ter and his cause. The time is come
when we must preach these doctrines
to repentance, and furnish mankind
with real lives of action, and not
imaginary lives of sentiment. Let
us quit trying to pass deluded com-
fort. We have no right to cheat
the world, even when it wants to be
cheated.

T. A. S. A.
This article, from the New Orleans
Advertiser, I commend especially to
the consideration of mothers, all
Sabbath-school teachers, and indeed
all who are interested in the prepa-
ration of correct literature for the
young. Also, too many parents are
satisfied if their children read, giv-
ing no attention to what they read.
I would not say that knowledge, give
a child food which contains poison, yet
are we not criminal in carelessly per-
mitting those entrusted to our care
to imbibe mental and spiritual poison
from books of questionable morality?

Only a few weeks since, a book from
a Sabbath-school library came under
my eye, and with shame and sorrow
I noticed that the leading character,
who was held up as a model for
Christian girls, was represented as a
victim of lovelessness, clad in purple
white out to leave the dazzling neck
and shoulders bare. "She placed
her hand upon her bosom, and sup-
ported her head upon her hand, and
by his circling arm, her glistening
figure floated in the mazes of the
waltz." I quote from memory and
may not give the exact words, but I
quote from the sense of the thing.
While to have pious ministers warn
against "conformity to the world,"
when religious (?) literature men-
tally practices of immoral tendency?
Let us look to it carefully.

M. T. G.
The Two Guests.
It was once our good friend
spent a few days in the modest home
of a friend of slender means, a home
that was all that its owner could at-
ford to make it, yet lacking in many
things that would have made it more
comfortable and convenient. Dur-
ing our stay two guests were enter-
tained at tea, both of them men, and
means and wide acquaintance, ac-
customed to all the luxury that
wealth can give. But were widely
different in their behavior. The
first, dressed in the latest mode, and
the second, in an old-fashioned suit,
was in an out of the way spot,
man, which brings him more money
and less trouble, while his mother
and God love him much more. All
of this is very agreeable to the brave
boy who, while he would take a
pounding if he could do no better,
never fails to get into a buggy with
a good man who will pay him for it.
This is but a sample of numbers of
other stories which are told to suit.
They are calculated to deceive and
disappoint. "In this world you shall
have tribulation." Through patient
toil and suffering and conflict we are
to win an incorruptible and not a
corruptible crown. Such stories
take all the pith and marrow out of
the gospel. They do not present
the majestic principle. They lead
us out to think that the devil plays
the bully till he finds us brave, and
then, like all bullies, he shows him-
self an arrogant coward. We are also
taught that temporal rewards come
down, like ripe oranges, the very
first shake.

Whoever undertakes a Christian
life with such shallow principles will
wither away as soon as persecution
comes. There is no motive strong
enough to carry a man through life
of the Christian course short of that
sense of duty which is infinitely
paramount to every temporal con-
sideration whatever. When duty
overrules every thought of danger
or safety, privation or advantage,
pain or pleasure of this life, whether
immediate or remote, then one's con-
victions are deep and strong enough.
Any teaching short of this falls be-
low Jesus' mission. I emphasize
this because it is the fashion of
the age to reckon this high sense of
duty as being a high water mark
possible to be reached only by prop-
hets and apostles and martyrs.

But says one, "If you go preach-
ing that doctrine you will set the
counter so deep that nobody will be
able to pull it through. You cannot
get people to repent on those terms.
You must often let them make it
easier." Then let me ask: what do
we mean by giving up for Christ,
by tramping under foot the vain
pomp and glory of the world, and
all the vain and covetous desires of
the mind? If these and many other
expressions mean nothing, let us ex-
change them from our vocabulary.
If you assume men that they are
going to have an easier and more
prosperous time in this life, of course
they will choose Christianity from
self-interest alone.

But there is a higher idea yet, viz:
No man who is influenced by selfish
motives ever benefits the world, ex-
cept incidentally or accidentally.
Nothing but the principle of duty,
separate from all selfish considera-
tions, ever has added or ever will
add anything to the real moral power
of the world. Where these con-

pleasants things because he liked
pleasant things, and he abstained from
criticisms and comparisons because
he disliked them. And when he had
done, husband and wife felt that
their efforts to make their little
home pleasant and comfortable had
not been in vain, and in their hearts
they blessed the kind soul who had
revealed it to them.—*Transcript.*

A Little Boy's Sermon.
"Eddie," said Harry, "I'll be the
minister, and you'll be a sermon."
"Well," said Eddie, "and I'll be
the people."
Harry began: "My text is a short
and easy one.—*Be kind.* There are
some little texts in the Bible on pur-
pose for little children, and this is
one of them. These are the heads
of my sermon:

"First, Be kind to papa, and
don't make a noise when he has a
headache. I don't believe you know
what a headache is. I had one once,
and I didn't want to hear any one
speak a word when I was sick."
"Second: Be kind to mamma, and
don't make her tell you to do a thing
more than once. It is very tiresome
to say, 'It is time for you to go to
bed, half a dozen times over."
"Third: Be kind to baby."

"You have left out, Be kind to
Harry," interrupted Eddie.
"Yes," said Harry, "I didn't mean
to mention my name in my sermon.
I was saying, 'Be kind to little Min-
nie, and let her have your 'red sled'
to play with when she wants it."
"Fourth: Be kind to Jane, and
don't scream and kick when she
washes and dresses you."

Here Eddie looked a little
ashamed, and said, "But she pulled
me by the comb."
"People mustn't talk in meeting,"
said Harry.
"Fifth: Be kind to Kitty. Do
what will make her purr, and don't
ask Eddie to make her cry."
"Isn't the sermon long now?"
asked Eddie; "I want to sing."
And without waiting for Harry to
finish his discourse or give out a hymn,
he began to sing, and so Harry had
to stop.

Beauty Within.
As we live according to the truths
we have, we become them. By daily
life they are wrought into the
texture of our spiritual forms, as the
food we eat is organized into bone and
muscle and the more delicate and
valuable the food, the more delicate
and valuable the body. For the Father,
the Son, the Holy Spirit, the divine
life, we become centers in which
the divine love and wisdom can
dwell and work out their purposes
of immeasurable good to us and to
others. Our souls become the good
ground from which the Lord can
bring forth a harvest of good. We
grow to grow every tree that is
pleasant to the sight and good for
food, and also the tree of life. Our
thoughts and affections will move
in union and give harmony to every
motion and sense. The light within
will be light without. The love within
will be love without. Into all lovely
forms around us. It will be propor-
tion and fitness in our dwelling; it
will be the landscape will be its
swelling outlines, the hills its noble
forms, the valleys its peaceful bosom.
The greatest thing which we do for
the world have not been accom-
plished by rich men, or by subscrip-
tion peddlers, but by men generally
of simple, practical means. The great-
est thinkers, discoverers, inventors
and artists have been men of small
wealth, many of them raised little
above the condition of manual labor-
ers in point of outward circum-
stances. And it will always be so.

Riches an Injury to Boys.
We think that the power of money
is, as the whole, overestimated.
The greatest thing which we do for
the world have not been accom-
plished by rich men, or by subscrip-
tion peddlers, but by men generally
of simple, practical means. The great-
est thinkers, discoverers, inventors
and artists have been men of small
wealth, many of them raised little
above the condition of manual labor-
ers in point of outward circum-
stances. And it will always be so.

Three Doctors.
Wm. Howitt, the author, who has
done a great deal of work and re-
ceived a great deal of honor, was
once asked by a lady to recom-
mend her to a good doctor. He thus
tells the answer he gave:
"I told her that I could recommend
that one would be enough; but I as-
sured her that she would find these
three more economical and efficient
than any individual. Their names were:
'Temperance, Early Hours, and
Daily Exercise.' That they were
the only ones that I had employed
for years, or meant to employ."

Beware of overmuch liberality.
Sectarianism is bad, but latitudinari-
anism is worse. Bigotry is very ob-
jectionable, but modern liberalism is
far more dangerous. Goodness is
over trilled is silly, but quietly to
fold our arms and allow the very
foundations to be removed without
a struggle to save them is both cow-
ardly and dangerous. The youth
of today are too much inclined to
causing us to love it more than life,
and feel it a fire in our bones. Con-
fess for the faith mildly and in a
Christian spirit, showing a due re-
gard to the feelings and opinions of
others, but showing at the same time
that you have a faith which you think
worth contending for.

FARM AND HOUSEHOLD.

Composting Manure.

Few farmers have an idea how
much manure can be saved when the
farm manure is taken. In the
fall, stable manure may be carted
directly to the field and spread as
made, with less expense in handling
and waste than in any other way.
But there are accommodations, and
which this cannot be done. These
are best put into a compost heap,
which should be started with a thick
layer of sods, or road dust—better if
the ground is a mixture of clay. Have
ready to hand road dust to form lay-
ers with the manure, which is de-
rived from different sources and of
varying composition from the privy
or earth closet, the pig pen and the
fowl roost; there are also ashes,
leached and unleached, kitchen sops,
garden weeds, the night urine, and
broken house. Some peat sops along
fences and other useless places, and
all go into the compost heap, not
heaped high, or into a conical form,
which sheds the water and induces
rotting. Make it flat, a few feet
thick, and as wide as is conveni-
ent to work, then add to the length
as the material accumulates, occa-
sionally turning it over and mixing
it as it rot, keeping it covered with a
coat of road dust. It will be sur-
prising at the end of the season how
much has been gathered, and how
rich the material. All the elements
of fertility are preserved, the more val-
uable well represented, so that it is
entirely reliable, fit to be applied to
anything, just the thing for a garden,
and especially suited to meadows,
giving an even covering, which will
start a growth black and thick, the
stimulus helping to sustain the plant
during the winter and starting it
early in the spring. Such a dressing
with soil in it is more lasting, and
will move the roots up into it, the
land thus being added to, instead of
being lessened, as with the usual soil.

There is nothing filthy about it;
it is more than about so much soil;
it is comparatively light and dry,
and pleasant to handle. The diffi-
culty is, there is so little of it, when
there might be so much by saving
the material that now goes to waste.

Chufas.
While at the Beaverton Board
meetings of the Cedar Creek Asso-
ciation, I happened with Bro. P. S.
Ballard, a deacon of the Baptist
church. He told me that he planted
last year a half of an acre of white
sandy land that would produce six
bushels of corn to the acre in chufas
and the yield was at the rate of one
hundred and twenty-five bushels to
the acre without manure. He sells
his chufas at fifty cents a bushel. Here
and at Cedar Creek, he sold over
\$1,000 a bushel or \$1,000 per acre. Just
think of it! \$250 to \$500 made on
one acre of wiregrass piney-woods
land that is worth in market from
\$1,000 to \$2,000 an acre. An acre in
chufas will produce more good feed
than the same acre in corn, which
sides the other crop, of which all
horses. One peck of seed will plant
a half acre. The seed should be
soaked in water for eight days, then
planted in rows three feet apart,
eighteen inches apart in the row.

Cultivate as you would corn. The
chufas should be sown in the row.
Let some North Carolina now in-
vent a machine for picking chufas,
and the problem is solved. "What
shall we do with our piney woods
lands after we have exhausted the
turpentine? They are better for
hogs and chickens than corn or peas,
and will grow farther. They are full
of sugar, and fattens rapidly.—*Ex.*

Testimony accumulates from
every direction in confirmation of
the sulphur treatment for leprosy.
Many cases of remarkable success
have been reported in the country.
In England a surgeon writes to the
London Times that after using two
dozen of his sulphur ointments, his
attention was called to an extract
from an American paper concerning
the use of Sulphur to cure the dis-
ease. Accordingly he used milk of
sulphur for infants and flowers of
sulphur for older children and adults,
brought to a creamy consistence
with glycerine. He gave teaspoon-
ful or more, according to age, once
or four times a day, swallowed slowly,
and applied it to the sores with a
sponge. From what he did he did
not lose a case, and succeeded in sav-
ing life even in cases where the disease
had almost filled up the throat.

Avoid giving a tireless very
cold water, as it often proves colic.
In large establishments chastised
steamed, but the truth is, horses
troughs; others allow them to
stand for some time in buckets. On
the road horses should be watered
once in ten miles at best. The
stomach of a horse is small in
comparison to his body at large
draughts injuriously distend it; con-
sequently, small quantities regu-
larly intervals is the best rule.

The American Chemist says a
Western farmer who could make
years ago that wood could be made
to last longer than iron in the
ground. Time and weather says,
seem to have to effect up it. The
process is to prepare a mixture of
two cents a piece. This the re-
cipe: Take boiled linseed and stir
into it pulverized charcoal the con-
sistency of paint. Put a bit of this
over the timber, and, weds, there is
not a man who will list to see it rot.

The Journal of Chemist recom-
mends powdered borax on as an
insecticide, and says that about of
alum dissolved in two quarts of hot
water and applied with brush
while it is quite warm will drive
away nearly all kinds of vermin.

Now is the time to do it work
on the farm. Keep the ground
by quick and thorough evapora-
tion. A good start is the mowing in
farming, as well as every to else.
